– for 3 U eurocards incl. mounting material

art. no.
VS 1

class of inflammability:	UL 94 V-0
material:	polyamid GV

– for PCBs in any size incl. mounting material
– 1 set = 2 pcs.

art. no.
VS 2

class of inflammability:	UL 94 V-0
material:	polyamid GV

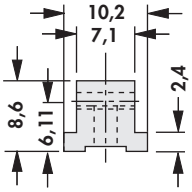

– with M2.5 threads for front panel and circuit board mounting

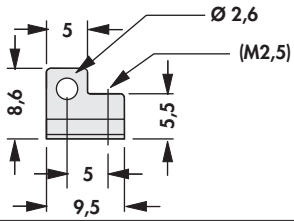

art. no.
VS 3

material:	zinc die-casting

– with M2.5 threads for front panel mounting and through-hole for circuit board mounting

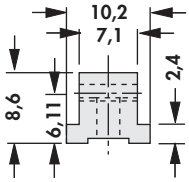

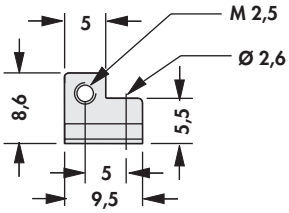

art. no.
VS 4

material:	zinc die-casting

– with M2.5 threads for circuit board mounting and through-hole for front panel mounting (using an aluminium handle)

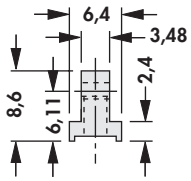

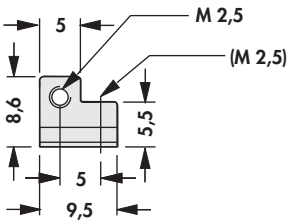

art. no.
VS 5

material:	zinc die-casting

– for the double-sided assembly of circuit boards in grid of 1 HP
– part front panel requires special drilling
– with M2.5 threads for front panel and circuit board mounting

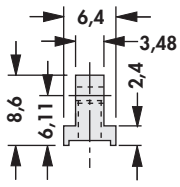

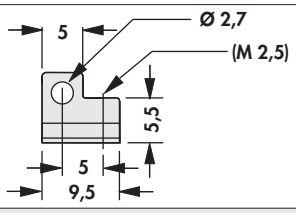

art. no.
VS 6

material:	zinc die-casting

– for the double-sided assembly of circuit boards in grid of 1 HP
– part front panel requires special drilling
– with M2.5 threads for front panel mounting and through-hole for circuit board mounting

art. no.
VS 7

material:	zinc die-casting
