

G5L Series High-Current Micro Switch

■ Features

- The G5L series micro switch with high current is designed for power tools.
- Small compact size, tight configuration, big compact space, safe and high reliability.
- Main applied in the power tools, etc.
- Variety of levers and terminals types.

■ Parameters

Electrical Rating	G5L	25.1A 84 VDC 25.1A 60 VDC
Operating Frequency	Electrical	15 cycles/minute
	Mechanical	60 cycles/minute
Contact Resistance (Initial value)		100mΩ Max.
Insulation Resistance		100MΩ Min.
Dielectric Strength		Between Terminals: AC 1500V Between Terminals And Housing: AC 1500V
Operating Temperature		25°C ~ +85°C
Service Life	Electrical Life	50,000 cycles
	Mechanical Life	1000,000 cycles

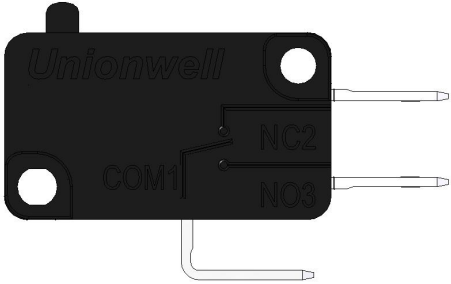

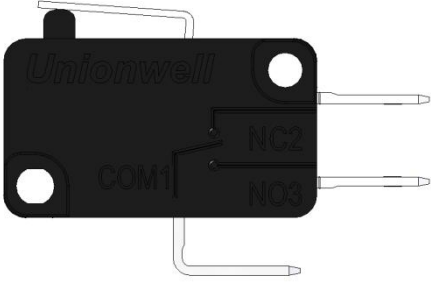

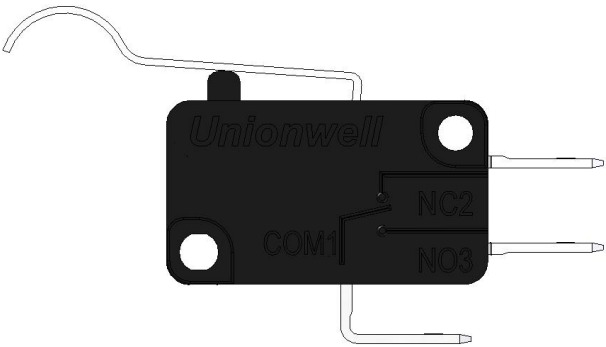

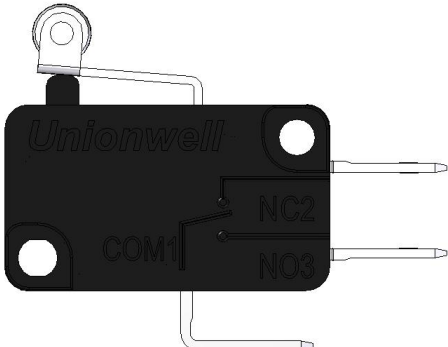

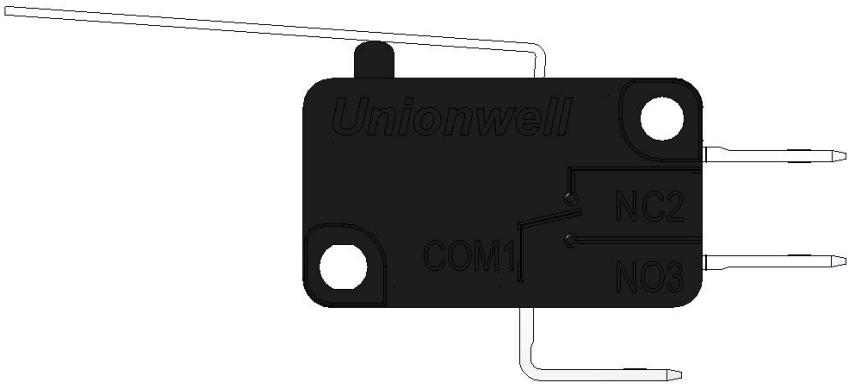

■ Terminals Type

6.3*0.8mm Quick Connect (C)	4.8*0.8 Quick Connect (D)
Solder Terminals (F)	

■ Circuit Configuration

A: SPDT	B: SPST-NC	C: SPST-NO

■ Lever Type

No Lever Pin Plunger	01# Straight Lever
	
120# Simulated Roller Lever	05# Roller Lever
	
2# Straight Lever	
	

■ Dimensions

No Lever Pin Plunger

01# Short Straight Lever

2# Straight Lever

05# Roller Lever

120# Simulated Roller Lever

■ Structural Innovation Design Description

Features Description:

1. Big contact space design, reaching the standard of safety micro switch;
2. Adopted the magnet arc extinguishing design, place the magnetic needle at a close position of the contact, and the magnetic needle can have the arc extinguishing effect on NC/NO at the same time;
3. Apply the rib and groove design around the switch case and cover to prevent dust.

■ Applications

Widely applied in various power tools, dishwasher machines, electric hot faucets, etc.

G5L Series Micro Switch
